

The **Accelerator**[®]

~~100~~ 120 car day

Turn a 100 car day into a 120 car day on your automatic...using “The Accelerator” by Blendco Systems!

How does The Accelerator[®] do it?

In a word – science. Blendco has scientifically developed a revolutionary new cleaning and protectant product in one. Now you can combine cleaning and protectant steps ... actually Accelerating the wash process!

How do I apply The Accelerator?

The Accelerator is used in the high pressure rinse stage of an automatic wash to blast soils off the car while simultaneously providing a high quality protectant layer. This allows you to combine 2 passes in 1!

What other benefits does The Accelerator provide?

- Save up to 25% water per wash
- Experience 20% less wear on your automatic equipment
- Lower your utility bills
- Wash 20% more cars in an allotted time
- Rinse cars better by starting the protectant step earlier

Where can I get The Accelerator?

Only from Blendco Systems. Call your Blendco distributor today and start washing cars 20% faster!
