

# SuperBlend™

Patent Pending

***BLEND YOUR OWN WITH BLENDCO!***

*Create quality car care products with the push of a button!*

The NEW SuperBlend Center offers:

- An **easy-to-use** system that makes a wide range of detergent and protectant products at the push of a button
- Unsurpassed **value** by means of superconcentrates which reduces freight, storage and handling costs
- Blendco **chemistry** and **quality** for unparalleled results

**With a SuperBlend Center,**

- Become your own blender to compete locally against anyone!
- Blend 5, 30, 55 gallon or any size concentrated detergent or protectant.

# A Revolutionary New System from Blendco Systems

## How does SuperBlend™ do it?

- Combines independent super-concentrates together with water to create an industry comparable concentrate.
- Patent pending design provides consistent quality, reliable operation, push-of-a-button ease and proven Blendco chemical performance.

## What products can I make and for how much?

SuperBlend can make virtually any concentrated detergent or protectant at catalog prices.

The following products are currently available:

- Presoak with Fragrance
- Tire and Wheel Cleaner with Fragrance
- High Pressure Detergent
- Tricolor Foam Brush
- Automatic Presoak
- Low pH Presoak
- Tricolor Foam Conditioner
- Clearcoat Protectant
- Drying Agent
- Total Car Protectant

## How does SuperBlend™ work?

1. Attach the product specific SuperBlend injector to the SuperBlend station.
2. Select and connect the appropriate SuperBlend super-concentrate.
3. Place the desired container size under the SuperBlend Center and insert the outlet hose and float.
4. With the push of a button, the system automatically blends, mixes and fills to the desired level.
5. Secure lid to new SuperBlend concentrated detergent or protectant.

**It's that easy! Now you are blending with Blendco!**

## How do I get started?
